### Shipping your vaporizer – SAFELY

**Important:** *Uninsured shipments which are damaged in transit will NOT be reimbursed by the carrier. If you cannot or do not wish to follow the packing instructions, please bring the vaporizer to your closest UPS Store or shipping center and have them wrap, insure and ship. This way if there is any shipping damage they will be responsible for reimbursement to you.*

If you are shipping your vaporizer to us please follow the following instructions:

1. Please call prior to shipping your vaporizer.
2. Be sure to drain the anesthetic agent, the liquid Isoflurane or Sevoflurane, completely from the vaporizer into an appropriate anesthetic bottle to keep for later use. If you need help in doing this, please call.
3. Wrap the vaporizer completely in plenty of bubble wrap (approximately 1.5" to 2" thick).
4. Place the vaporizer in a small enough box to be a tight fit around the vaporizer and bubble wrap. Usually a box that is 10"x10"x10" is appropriate. If there is extra room, add more packing material so there is no movement of the vaporizer within the smaller box.
5. Enclose your contact information in the box:

Hospital name, physical shipping address, phone number, owner or doctor of the practice and contact person. We cannot return ship your vaporizer to a P.O. Box.

Please include the reason for sending vaporizer (i.e. Leaking, knocked over, yearly maintenance service, calibration etc.)

6. Take the smaller box and insert it into a larger box which is 2-4" larger in all dimensions (either a 12"x12"x12" or 14"x14"x14" box. Place peanuts or packing material (1-2" thick) between the two boxes on all 6 sides. Securely tape box closed.
7. INSURE the package for \$950.00. If you don't insure it, you will not receive any compensation for the damage or the loss of the merchandise.
